DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 16-19, and 29-31 are rejected under 35 U.S.C. 102(b) as being anticipated by Klimova et al (Zhurnal Prikladnoi Khimii, 1965; the article is not currently available, but the English language abstract is provided).

Klimova et al disclose a copolymerization method of vinylene carbonate comprising two monomers which meet the limitations of the instant claims 1, 16, and 29-31. One monomer meets the limitations for the second monomer by being of formula V and in the other, R² a and b are both hydrogen atoms, R⁴ is a methyl group, and R³ is COOH.

Allowable Subject Matter

3. Claims 2-15 and 20-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art of record fails to teach or suggest to one of ordinary skill in the art to prepare a copolymer for use in a lithographic process or one wherein the structural limitations of claims 2-15 and 20 are met.

Art Unit: 1752

4. The following is a statement of reasons for the indication of allowable subject matter: Claims 23-28 are indicated as containing allowable subject matter as the prior art of record fails to teach or suggest to one of ordinary skill in the art to prepare a copolymer as described by the instant claims for use in a resist composition.
